"Hard work beats talent, when talent doesn't work hard."

Hi There ! My name is Dewald, Recent BCom Business Management graduate with a specialization in technology, development, database design and management, as well as project and risk management. While my professional experience is in its early stages, I bring a strong foundation in business and technology, showcasing proficiency in various technologies, adaptability, and a solid understanding of programming. My academic journey includes practical knowledge in database design, project management, and risk mitigation.

As a fast learner, I am eager to acquire real-world experience, and my loyalty and commitment makes me a dedicated contributor to any team. Driven by a passion for solving complex business problems through innovative solutions, I am actively seeking opportunities to apply my skills and contribute positively to a dynamic work environment.
